Here is the latest schedule.

Looks like the Corps final report is several months out – will finish FS using their draft.

PRP Sediment/fish/surface water sampling dependent on river conditions – 13 feet now & falling (attached).

Dive Team work 5/9/16 – PRPs confirming boat/support available then.

Yes, we can do it at 2:30 today.

I will send the schedule to Monica for discussion and mention the call for 2:30 pm. CAS

Gary, please provide the latest schedule. I am not sure if anything has changed from the past few days.
